

POLYTURF

FULL-DEPTH SYSTEM

The Workhorse Of All Multi-Purpose Flooring Systems

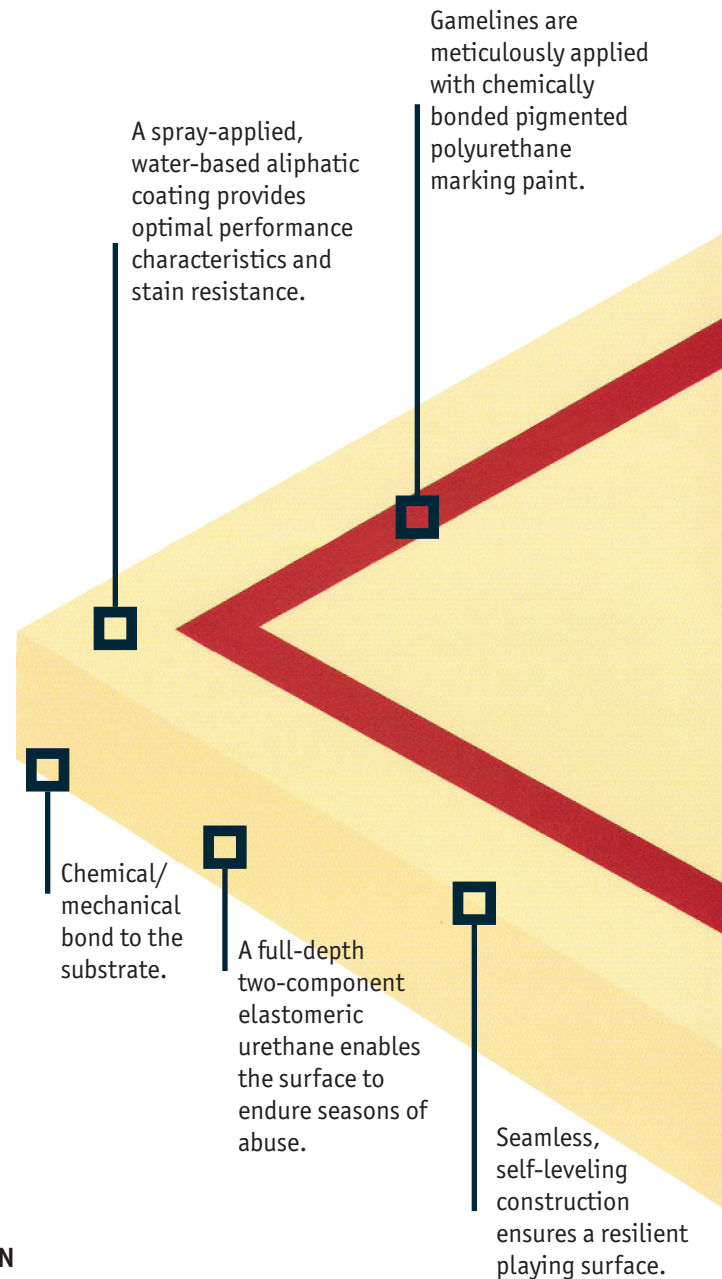

PolyTurf is a full-depth two-component, poured-in-place polyurethane system that offers maximum durability with minimal maintenance.

Its seamless surface resists UV degradation and stains, and holds up against abuse from tables, chairs, rolling loads - all while providing high-level athletic performance. You get the best of both worlds: high resiliency and enduring toughness.

After 12-15 years, your PolyTurf system can be easily resurfaced, making this a smart investment for every season.

Water-based color and gameline options are available upon request.

**SEASON AFTER SEASON
THE POLYTURF INDOOR
SYSTEM KEEPS GOING STRONG**
